2	<p>For Evaluating Significance within Registered Historic Districts: Complete section (1), (2), or (3) according to which of the Secretary's "Standards for Evaluating Significance within Registered Historic Districts" applies.</p>
---	--

- (1) ☒ The structure contributes to the historic significance of this district in:
- ☒ location ☒ design ☒ setting ☒ materials ☒ workmanship ☒ feeling and association
- Briefly explain how this structure relates to the significant qualities and characteristics of the district as described in the National Register nomination form or district documentation on file.

This district is characterized primarily by 19th century masonry rowhouses, 2 bays, 2-3 stories, and simple in decoration.

This large 3 story building was covered with brown stone. Adjacent 2 story structure altered but now part of this building. Extensive ornamentation is missing and little remains on interior. Missing of main body and all brick additions intact.

- (2) _____ The structure does not contribute to the historic significance of this district because:
- _____ it does not add to the district's sense of time and place and historical development;
- _____ the location, design, setting, materials, workmanship, feeling and association have been so altered or have so deteriorated that the overall integrity of the property has been irretrievably lost.
- Briefly explain this recommendation:

- (3) _____ For structures less than 50 years old:
- _____ the historical merits of the district are documented in the National Register form or district documentation on file as less than 50 years old, justifying the certification of this structure's contribution.
- _____ the strong historical or architectural merit of this structure as described in the National Register nomination form or district documentation on file justifies its certification as contributing.
- _____ there is insufficient justification to consider this structure contributing on the basis of its individual architectural or historical merits or the significance of the district
- Briefly explain how Standard (3) applies to this structure's individual merits or its significance in relationship to the significant qualities and characteristics of the district:

5. Description of physical appearance: The buildings identified as 612-614 N. Eutaw Street consist of respectively: (612) an underpass with 2nd story brick structure with flat roof adjoining a (614) three story brick building with full basement and a flat roof.

Ghost lines reveal original cornice detail on 2nd floor roof line of 612 and 3rd floor roof line of 614. Three air vents are noted below front roofline of 614. All windows are one over one on both buildings; however the front elevation of 614 features arched brickwork as upper window treatment on 2nd and 3rd floors. The building, which is basically rectangular, is vacant. The upper floors contain essentially non-descriptive rooms with no architectural detailing. There is a stairwell between 612 and 614 which is worthy of preservation if possible.

Date of Construction: Circa 1850 Source of Date: CHAP (Commission on Historic & Architectural Preservation)

Date(s) of Alteration(s): _____

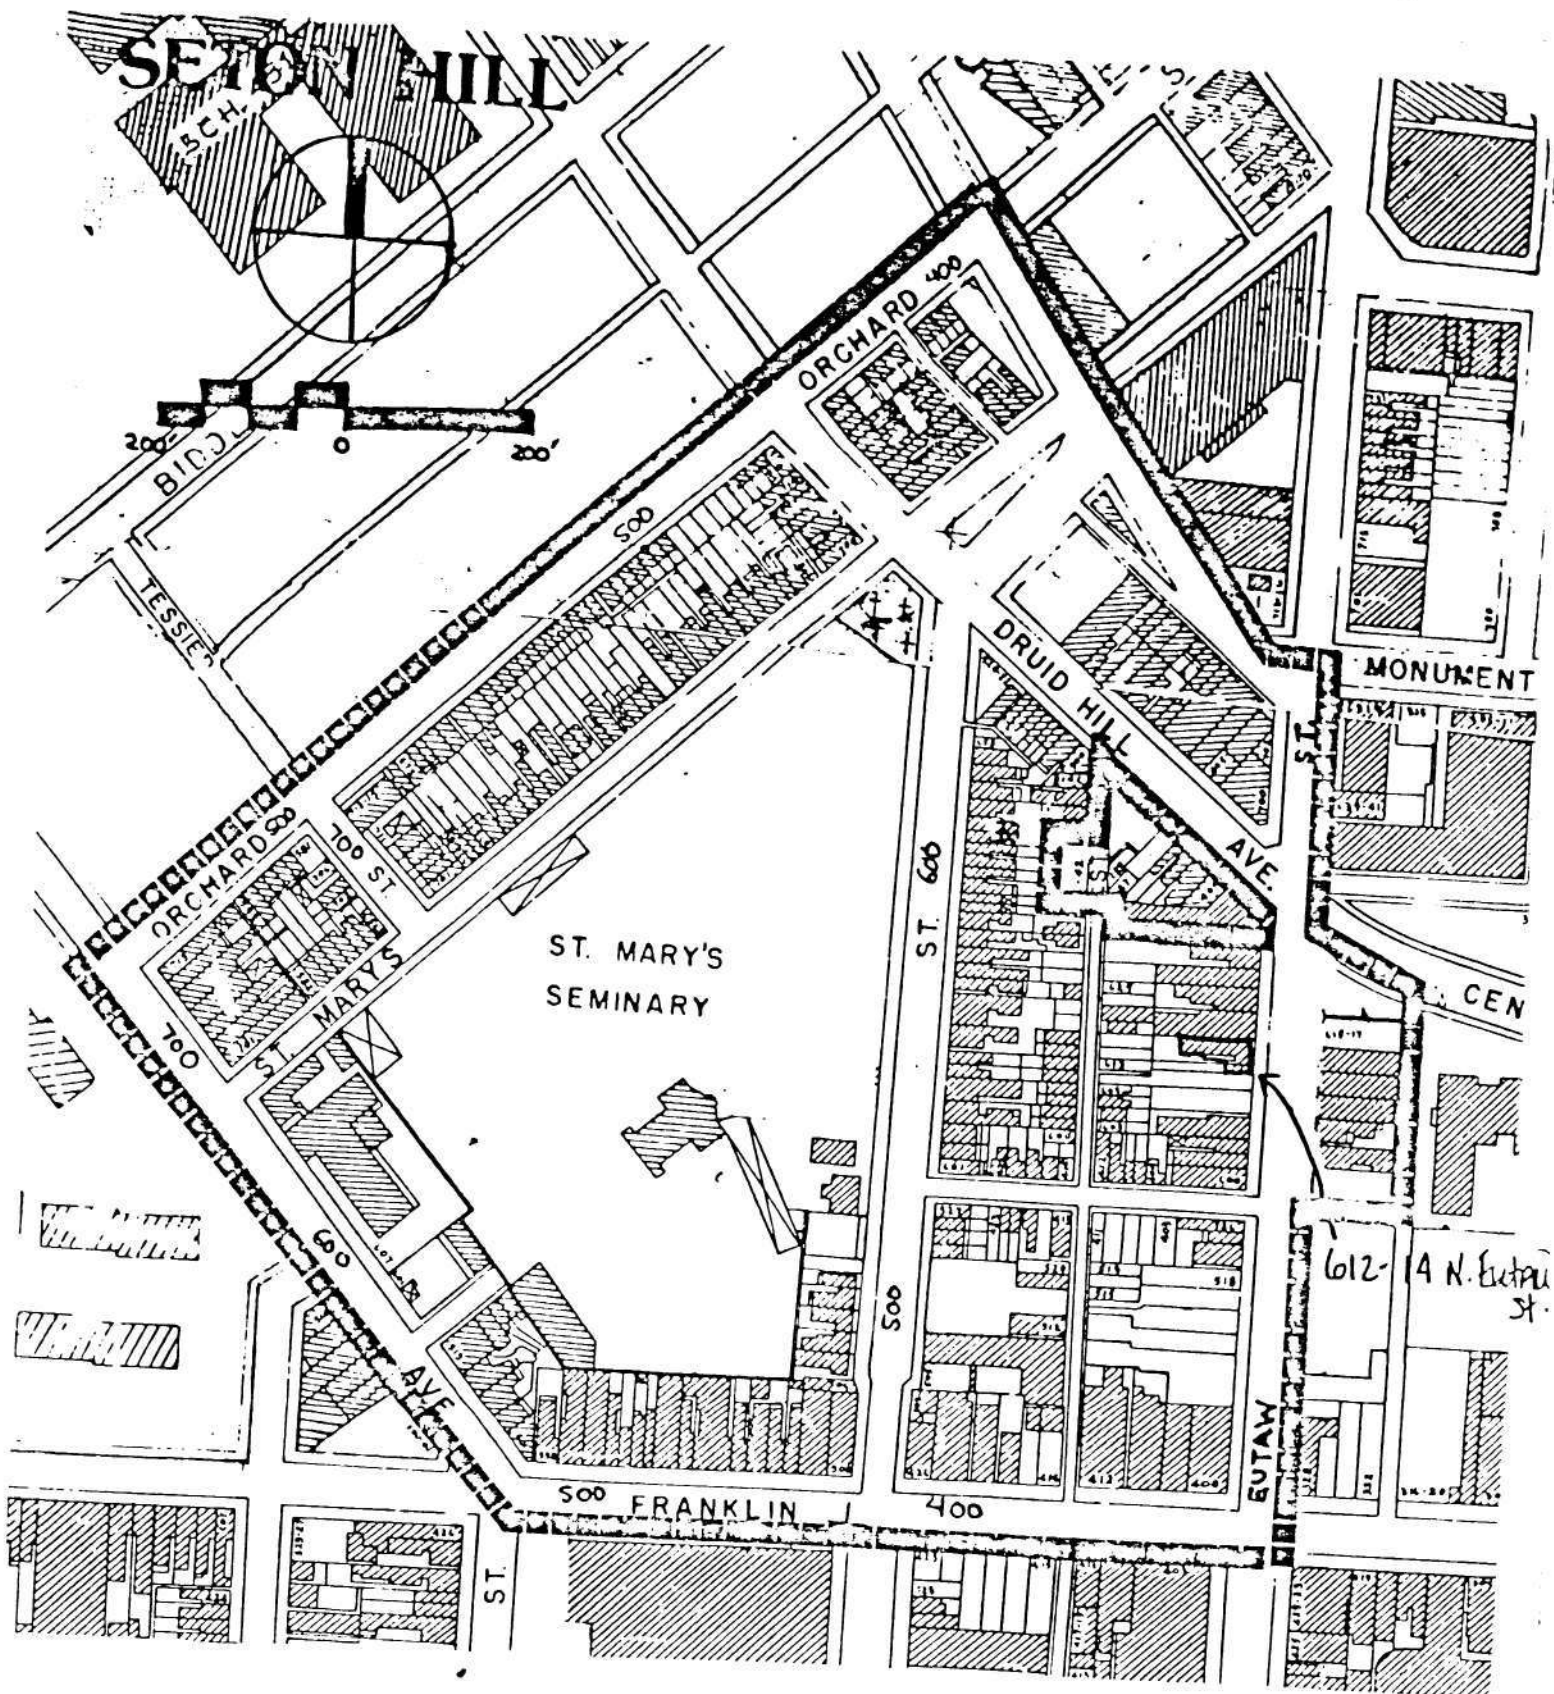

Has building been moved? ☐ yes ☒ no. If so, when? _____

Statement of significance: The building represents an intact grouping of architecturally significant residential and commercial structures built between 1840 and 1900 in the Seton Hill Community of Baltimore City. Seton Hill is architecturally significant as one of Baltimore's earliest intact rowhouse neighborhoods. Historically, the area is linked to Saint Mary's Seminary, the first Catholic Seminary in the United States and Elizabeth Ann Seton, the first American canonized Saint. Mother Seton was also the founder of the Sisters of Charity, the first order of nuns founded in this country. While most of the designers of housing in Seton Hill are unknown, the master architect, Maximillian Godefrey, was responsible for the Saint Mary's Seminary Chapel. This building is recognized to be the first significant Gothic Revival church built in America. The small houses of Seton Hill, the juxtaposition of commercial and residential buildings along main thoroughfares, the changes and alterations that individual buildings and the community in general have gone through in the early twentieth century and the community's association with the early nineteenth century development of the Catholic Church in Baltimore has yielded important information on the growth and change of local neighborhoods throughout the nineteenth and twentieth centuries.
